KNOW THE CODE

Skiing and snowboarding can be enjoyed in many ways. At ski areas, you may see people using alpine skis, snowboards, telemark skis, cross-country skis, and other specialized equipment, such as that used by people with disabilities. Regardless of how you decide to enjoy the slopes, always show courtesy to others and be aware that there are elements of risk in skiing that common sense and personal awareness can help reduce, but never eliminate. Observe the code listed below, and share with other skiers and riders the responsibility for a great skiing experience. **Know and obey the code. It's your responsibility.**

- Always stay in control. You must be able to stop or avoid people or objects.
- People ahead or downhill of you have the right-of-way. You must avoid them.
- Stop only where you are visible from above and do not restrict traffic.
- Look uphill and avoid others before starting downhill or entering a trail.
- You must prevent runaway equipment.
- Read and obey all signs, warnings and hazard markings.
- Keep off closed trails and out of closed areas.
- You must know how, and be able to load, ride and unload lifts safely. If you need assistance, ask the lift attendant.
- Do not use lifts or terrain when impaired by alcohol or drugs.
- If you are involved in a collision or incident, share your contact information with each other and an employee.
